

# CHBA <sup>Is</sup> <sup>An</sup> Advocate For YOU

The CHBA is an advocate on behalf of members, actively working to elect pro-housing, pro-building candidates to public office and keeping members updated about changing rules and regulations that affect the homebuilding industry.

Local HBA raised funds through contributions from individual members and corporations for PAC:

**80%** for CHBA support of locally selected candidates

**15%** toward statewide candidates, such as governor's race

**5%** to help defray the costs of operating the SC Builders PAC

**\$14,285**

savings per housing start with NAHB

**\$25,000+**

estimated savings per home with HBASC

In 2014, the NAHB helped pass the Homeowner Flood Insurance Affordability Act, lowering insurance rate hikes and saving builders/remodelers \$\$\$.

HBASC is actively engaged in more than 100 state bills and tracks over 1,000 of the bills filed during South Carolina's Legislative Session.

In conjunction with HBASC and NAHB, CHBA has lobbyists working to protect the building industry at the State House and Congress from issues such as impact fees and mandated fire sprinklers.

CHBA works tirelessly with the local government to control costly regulations and holds monthly meetings with local building officials which members are invited to.

**JOIN the CHBA TODAY** And help us in building the future of the Lowcountry
